SAREK

— DIVIDERS

Functional spaces

The range of Sarek accessories allows us to create settings of all types with panels, side tables or meeting tables or even workstations. Also, modules can integrate power outlets connected to technical floors.

Environments with character

The shades available for the Sarek collection allow us to use color to design creative, customized spaces that will adapt to all architectural styles. For corporate environments, you can customize the shades on demand.

Mobile and fixed arrangements

In environments that require flexibility, the weight of the modules is perfect to re-arrange them or to always keep the modules in the same place. Permanent structures used in shared spaces can be fixed with a clip.

BOARDS

Designers

Stone Designs is a cross-disciplinary design studio. It is based in Madrid but works worldwide on projects for interior design or products. This studio attended a special course on Flexyskin before working with Böln on the development of the Abisko collection. A stylish range of stools created with their own experience in designing interiors and heavy-duty shared spaces.
