ITALIAN OUTDOOR EXPERIENCE

CONTRACT

# BA\_GIGIO

Ba\_Gigio è separatore, cinta perimetrale ed elemento decorativo scultoreo disegnato da Simone Micheli per MY YOUR. L'architetto interpreta il progetto come "un elemento componibile senza limiti a rappresentazione tridimensionale del simbolo dell'infinito, nato dalla rivoluzione dello stesso intorno al proprio asse e come macro immagine spaziale di un legame atomico bipolare". Ba\_Gigio è un elemento che plasma lo spazio e lo suddivide con una forte caratterizzazione, diventandone il protagonista. In diverse componibilità e altezze, è disponibile nella versione full-white gofrata stampata.

Ba\_Gigio is a divider, perimeter fence and sculptural decorative element designed by Simone Micheli for MY YOUR. The architect interprets the project as 'a modular element without limits, a three-dimensional representation of the symbol of infinity, born from its revolution around its own axis and as a macro spatial image of a bipolar atomic bond'. Ba\_Gigio is an element that shapes and divides space with a strong characterisation, becoming its protagonist. Available in different configurations and heights, it comes in a full-white embossed moulded version.
