

## SPECIFICATION

Range: **KLIPPER**

Design: **Felicia Arvid**

Sound-absorbing element fixed to the wall.

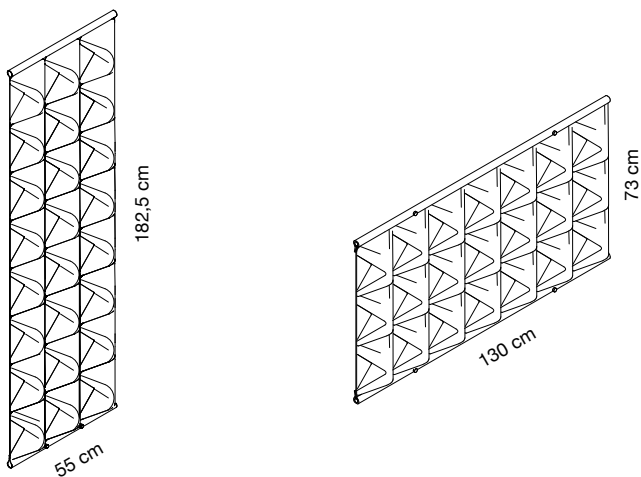

### Description:

Sound absorbing element composed of two sheets, 4 mm thick, made of composite material consisting of a surface layer made of Snowsound-Fiber 8 Bouclè fabric coupled with a layer of black polyester. The outer sheet is folded and inserted into laser-cut stainless steel clips forming three-dimensional, sinuous and undulating shapes. At the ends there are slots for the insertion of two  $\varnothing$  16 mm stiffening tubes made of steel, secured by threaded pins with chrome-plated steel heads. Wall attachment is by means of a sturdy painted steel bracket that is hooked onto the upper tube and locked by means of the pins.

The Snowsound-Fiber outer fabric is **Greenguard Gold** certified, which validates its low VOC emission characteristics and its contribution to indoor environmental quality.

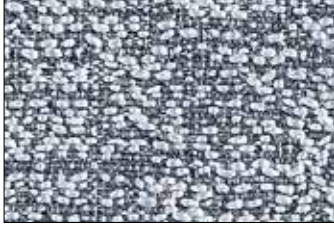

The Snowsound-Fiber outer fabric is **100 per cent recyclable** and has an undetectable formaldehyde content according to EN 717-2, and does not contain felts or other materials of organic origin that are difficult to recycle.

### Dimensions:

Available colors:

801

Fiber 8 Bouclè

Caimi Brevetti S.p.A. reserves, by its unappealable judgment, the right to modify without prior notice the building materials, the technical and aesthetic specifications, as well as the dimensions of the products in this technical sheet, where pictures are purely as an indication.
