“Snowcustom” sound absorbing element, wall fixing.

A family of four sound-absorbing elements each consisting of an internal sound-absorbing padding in variable-density polyester fibre covered on the front with Snowsound-Fiber sound-absorbing polyester fabric fixed to the padding by means of removable metal elements on the back of the panel.

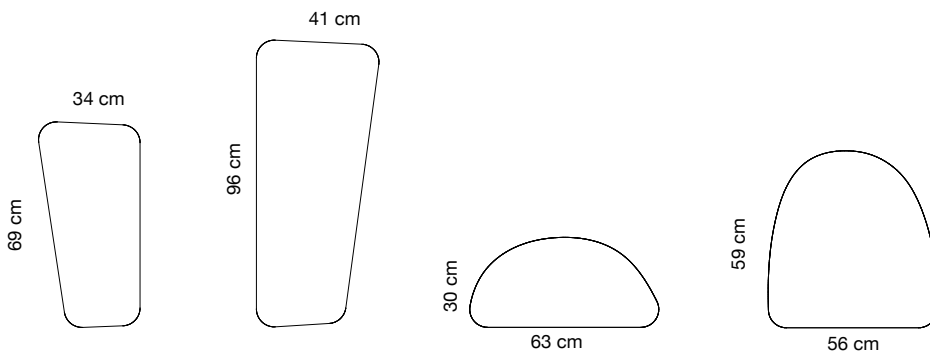

Each sound-absorbing element is fixed to the wall by means of three magnetic attachments, each consisting of a galvanised steel plate equipped with a magnet perimeter containment system and fixed to the panel by means of 4 self-threading screws, a non-magnetic spacer and a corresponding perforated magnet to be fixed to the wall.

Optional: steel safety cable to be hooked between the galvanised steel plate and the non-magnetic spacer.

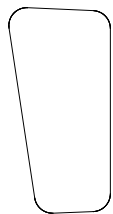

Fire reaction class: **Euroclass B-s2, d0**.

The product is 100% recyclable and contains no felt or other materials of organic origin that are difficult to recycle.
